## Mission Statement

Platinum02 Technologies a subsidiary of Weisman Management Partners & Associates Incorporated design and manufacture portable blockchain asset generators that comprise both hardware and software systems for use in (1) mining cryptocurrencies, (2) multi-optional staking rewards, (3) referral sales rewards, (4) node rewards, thus giving users broader options to generate cryptocurrency assets at the lowest cost. The founder Tony Drake is the primary visionary founder of Platinum02 Technologies established in 2019.

## Business Overview

Platinum02 Technologies a subsidiary of Weisman Management Partners & Associates Incorporated design and manufacture portable blockchain asset generators that comprise both hardware and software systems for use in (1) mining cryptocurrencies, (2) multi-optional staking rewards, (3) referral sales rewards, (4) node rewards, thus giving users broader options to generate cryptocurrency assets at the lowest cost. The founder Tony Drake visionary founder of Platinum02 Technologies established in 2019.

## Value Proposition

Platinum02 Technologies a subsidiary of Weisman Management Partners & Associates Inc unique position in the cryptocurrency industry comprise three categories of products, (1) M2-20 Portable Blockchain Asset Generators which is secured in an aluminum carry case for portability which can be used anywhere in the world where there is high speed internet access. The CX 5000 is a unique blockchain asset generator designed to work in motor vehicles for people who drive for a living. The third product is the Platinum02 Mini, which is also a portable blockchain asset generator designed for the everyday person generating cryptocurrency assets daily. The unique position of Platinum02 Technology products are its initial staking rewards on the purchase of the products, which translates into more cryptocurrency rewards. The Platinum02 Blockchain is a very user-friendly technology that gives users greater options to generate multiple sources of cryptocurrency as well as integrated proprietary business opportunities.

## Market Analysis Target Market

The Blockchain Industries growing mainstream integration within its core user base of Miners, NFTs, Defi, Gaming, Traders, Stable Coins, CeFi, Crypto Payment Services, Bitcoin EFTs, DEXs, Smart Contracts, Ai integration, IoT, provide Platinum02 with vast opportunities through which Platinum02 products and services are highly in demand in terms of the convenience of daily cryptocurrency liquidity that is portable or stationary.

## Competitor Analysis

Companies like IceRiver offer their customer base several types of miners which mine their cryptocurrency Kaspa tokens, they are currently as of 03/26/2024 listed on Coinmarketcap number 44 with a \$3.2 Billion Dollar Market Cap of 28.7 billion minable tokens while 80.63 are already mined. Platinum02 technologies offer users three different hardware options that are staked automatically at different percentages, and is not offered by any similar product/service on the blockchain except for the Crypto.com Crypto Debit Card. Furthermore, Platinum02 Technologies offer users the option to earn referral bonuses and staking rewards on every successful referral sale with more tools to generate cryptocurrency

assets being developed. This approach gives Platinum02 products and services a decided advantage over most competitors in the crypto space as a whole. Platinum02 PoW tokens are mined via GPU only, therefore is not Asics compatible and will have a supply of 100,000,000,000 to 500,000,000,000 of PoW Token supply for access to a larger audience of miners searching for sustainable liquidity. Categorically Platinum02 Spark (Pow) Tokens are utility tokens because they will be used similarly to BTC which can also be used to purchase Platinum02 products and services.

## Market Trends

The adoption of Bitcoin ETFs into the mainstream economy and the recent forking of bitcoin which will increase the market value of Bitcoin to over USD \$100k per token is a great opportunity to offer useful and practical technologies into the market that actually create value is a win-win for users. Platinum02 Technologies offer users a broader range of cryptocurrency assets generated daily than 90% of all crypto platforms. This is Platinum02's unique market positioning strategy backed by asset liquidity generated daily while pairing the Platinum02 Token with stablecoins such as USDC and USDT.

## The M2-20 Growth Strategies

Platinum02 Technologies Primary objectives is to create a fertile environment for innovation designed to tackle the most pressing issue of today which is to create income opportunities through the Blockchain through which millions of people worldwide may participate.

Innovation in our strategy differs from what is commonly viewed in this regard, when participation exceeds access, that reality denotes innovation by any measure, and that is how we determine innovation.

## Why The M2-20 is Key

Blockchain based Cryptocurrencies are used across the globe, and for developing economies, cryptocurrencies are the key to their survival.

Platinum02 Technologies provide compatible products and services to users so that may thrive vs. survive, the mission and vision of Platinum02 Technologies aim to accomplish this mission through innovative enhancements throughout its product line to accomplish the impossible in helping those struggling to survive in this selfish world with viable alternatives to fiat money.

- The package cost members \$45.00 Monthly

#### The M2-20/S Package

- Mines between \$120 to \$200 XMR Daily
- Has an automatic staking at 8%

# Summary and Closing Remarks

PlatinumO2 Technologies Invision evolving technology leaps of epic proportions over the next two years, thus Ai, Blockchain, Web3 and Automation will birth a new century of unbridled advancements currently impossible to fathom by any measure or timeline, therefore PlatinumO2 is committed to advancing imagination first, then creating the essence of that imagined, as long as it advances the best within the human experience. PlatinumO2 Technologies seek viable Partnerships such as yourself to bring PlatinumO2 Products and services to such Niche markets including Passport Bros who seek a way out of the Matrix Now without delay. We are aware of several similar positions which have become mainstream as well, and we seek to bring are products and services to these movements, as we believe are fully compatible with PlatinumO2 objectives and real use purposes,

## Product Specifications

### Specifications

- 9 X 7 X 2 INCH Dia
- Aluminum Casing heat dissipation design
- Simple Design Circuitry Durable
- 2 GH/S Hash or 2 million KH/S
- Wi-Fi Antenna with Ethernet Connection
- Dual Fan in and output
- Light weight 2lbs
- Aluminum Carry Case Convenient
- Dual Miner-1400-watt Power Supply DC/AC
- Easy Setup Operation 10 to 15 minutes
- Use anywhere Worldwide adapters
- The M2-20 Additional Device can be added to three
